

Federal Motor Carrier Safety Administration, DOT

§ 385.4

motor vehicles subject to the hazardous materials safety permit requirements of subpart E of this part.

FMCSA means the Federal Motor Carrier Safety Administration.

FMCSRs mean Federal Motor Carrier Safety Regulations (49 CFR parts 350–399).

HMRs means the Hazardous Materials Regulations (49 CFR parts 100–178).

New entrant is a motor carrier not domiciled in Mexico that applies for a United States Department of Transportation (DOT) identification number in order to initiate operations in interstate commerce.

New entrant registration is the registration (US DOT number) granted a new entrant before it can begin interstate operations in an 18-month monitoring period. A safety audit must be performed on a new entrant's operations within 18 months after receipt of its US DOT number and it must be found to have adequate basic safety management controls to continue operating in interstate commerce at the end of the 18-month period.

Preventable accident on the part of a motor carrier means an accident (1) that involved a commercial motor vehicle, and (2) that could have been averted but for an act, or failure to act, by the motor carrier or the driver.

Reviews. For the purposes of this part:

(1) *Compliance review* means an on-site examination of motor carrier operations, such as drivers' hours of service, maintenance and inspection, driver qualification, commercial drivers license requirements, financial responsibility, accidents, hazardous materials, and other safety and transportation records to determine whether a motor carrier meets the safety fitness standard. A compliance review may be conducted in response to a request to change a safety rating, to investigate potential violations of safety regulations by motor carriers, or to investigate complaints or other evidence of safety violations. The compliance review may result in the initiation of an enforcement action.

(2) *Safety Audit* means an examination of a motor carrier's operations to provide educational and technical as-

sistance on safety and the operational requirements of the FMCSRs and applicable HMRs and to gather critical safety data needed to make an assessment of the carrier's safety performance and basic safety management controls. Safety audits do not result in safety ratings.

(3) *Safety management controls* means the systems, policies programs, practices, and procedures used by a motor carrier to ensure compliance with applicable safety and hazardous materials regulations which ensure the safe movement of products and passengers through the transportation system, and to reduce the risk of highway accidents and hazardous materials incidents resulting in fatalities, injuries, and property damage.

RSPA means the Research and Special Programs Administration.

Safety ratings: (1) *Satisfactory safety rating* means that a motor carrier has in place and functioning adequate safety management controls to meet the safety fitness standard prescribed in § 385.5. Safety management controls are adequate if they are appropriate for the size and type of operation of the particular motor carrier.

(2) *Conditional safety rating* means a motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard that could result in occurrences listed in § 385.5 (a) through (k).

(3) *Unsatisfactory safety rating* means a motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standard which has resulted in occurrences listed in § 385.5 (a) through (k).

(4) *Unrated carrier* means that a safety rating has not been assigned to the motor carrier by the FMCSA.

[53 FR 50968, Dec. 19, 1988, as amended at 56 FR 40805, Aug. 16, 1991; 62 FR 60042, Nov. 6, 1997; 67 FR 12779, Mar. 19, 2002; 67 FR 31983, May 13, 2002; 69 FR 39367, June 30, 2004]

§ 385.4 Matter incorporated by reference.

(a) *Incorporation by reference*. Part 385 includes references to certain matter or materials, as listed in paragraph (b)

§ 385.5

of this section. The text of the materials is not included in the regulations contained in part 385. The materials are hereby made a part of the regulations in part 385. The Director of the Federal Register has approved the materials incorporated by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. For materials subject to change, only the specific version in the regulation is incorporated. Material is incorporated as it exists on the date of the approval and a notice of any changes in these materials will be published in the FEDERAL REGISTER.

(b) *Matter or materials referenced in part 385.* The matter or materials in this paragraph are incorporated by reference in the corresponding sections noted.

(1) “North American Standard Out-of-Service Criteria and Level VI Inspection Procedures and Out-of-Service Criteria for Commercial Highway Vehicles Transporting Transuranics and Highway Route Controlled Quantities of Radioactive Materials as defined in 49 CFR Part 173.403,” January 1, 2004. Information and copies may be obtained from the Commercial Vehicle Safety Alliance, 1101 17th Street, NW, Suite 803, Washington, DC 20036. Phone number (202) 775-1623.

(2) All of the materials incorporated by reference are available for inspection at: The Federal Motor Carrier Safety Administration, Office of Enforcement and Compliance, 400 Seventh Street, SW, Washington, DC 20590; and the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

[69 FR 39367, June 30, 2004]

§ 385.5 Safety fitness standard.

The Satisfactory safety rating is based on the degree of compliance with the safety fitness standard for motor carriers. For intrastate motor carriers subject to the hazardous materials safety permit requirements of subpart E of this part, the motor carrier must meet the equivalent State requirements. To meet the safety fitness standard, the motor carrier must dem-

49 CFR Ch. III (10–1–06 Edition)

onstrate it has adequate safety management controls in place, which function effectively to ensure acceptable compliance with applicable safety requirements to reduce the risk associated with:

(a) Commercial driver's license standard violations (part 383),

(b) Inadequate levels of financial responsibility (part 387),

(c) The use of unqualified drivers (part 391),

(d) Improper use and driving of motor vehicles (part 392),

(e) Unsafe vehicles operating on the highways (part 393),

(f) Failure to maintain accident registers and copies of accident reports (part 390),

(g) The use of fatigued drivers (part 395),

(h) Inadequate inspection, repair, and maintenance of vehicles (part 396),

(i) Transportation of hazardous materials, driving and parking rule violations (part 397),

(j) Violation of hazardous materials regulations (parts 170 through 177), and

(k) Motor vehicle accidents and hazardous materials incidents.

[53 FR 50968, Dec. 19, 1988, as amended at 58 FR 33776, June 21, 1993; 69 FR 39367, June 30, 2004]

§ 385.7 Factors to be considered in determining a safety rating.

The factors to be considered in determining the safety fitness and assigning a safety rating include information from safety reviews, compliance reviews and any other data. The factors may include all or some of the following:

(a) Adequacy of safety management controls. The adequacy of controls may be questioned if their degree of formalization, automation, etc., is found to be substantially below the norm for similar carriers. Violations, accidents or incidents substantially above the norm for similar carriers will be strong evidence that management controls are either inadequate or not functioning properly.

(b) Frequency and severity of regulatory violations.

(c) Frequency and severity of driver/vehicle regulatory violations identified in roadside inspections.
